

International Workshop on Astrophysics and Cosmology

(IWAC-20) (Webinar)

07 - 08 December, 2020

National Centre for Physics, Islamabad

Introduction

The field of Astrophysics and Cosmology has grown a lot over the past few decades. The experimental breakthroughs in recent years as well as future international collaborations have gathered great interest in these exciting areas of Astrophysics and Cosmology. The purpose of this workshop is to provide an overview to interesting areas of Astrophysics and Cosmology. The aim is to foster discussion about interesting topics such as black holes, early universe cosmology, exo-planets and other topics of Astrophysics and Cosmology through a small number of invited talks and discussions. There will be talks by Professors from around the globe at basic and intermediate level. Thus B.S. and M.S level students are all encouraged to apply in this workshop.

Registration

There is no fee for workshop registration. Only relevant registered participants will be allowed to attend the workshop. Online registration can be done through the following link:
